

AUTOMATED BURSAR BILLING SERVICE

Lower out-of-pocket costs for educational materials with seamless access to funds before classes start

indiCo is partnering with Trimdata to bring you a hassle-free system that allows immediate access to student funds and reduces staff time and processing costs while improving service. This configurable and automated technology lets students make purchases anywhere on campus using just their student ID.

BENEFITS

For the Institution: Boost the campus economy

- Enables any business partner or internal department—on or off campus—to accept bursar billing or student financial aid
- Reduces the challenges associated with account/student financial aid purchases
- Keeps more student spending on campus, at any approved location

For the Bursar's Office: Automate invoice processing

- Controls spending by product category
- Reduces staff time and errors that occur with manual invoicing process
- Ensures regulatory compliance with a trusted, experienced partner

For the Bookstore: Simplify a complex, frustrating process for students and staff

- Creates shorter lines with expedited electronic processing
- Reduces staff time during rush
- Improves cash flow by getting paid daily

Together we're providing a convenient system for campus stores, merchants, and departments to access student funds in real time.

KEY FEATURES

Real-Time Verification of Student Funds

Daily Payments to Campus Business Partner

Seamless Repayments to Institution

Built-in Regulatory Compliance
